(Tiny moments deceived by these moments)
(Tiny) tiny (moments) moments
Believed to make her feel free
Past times rectified
(Tiny) tiny (moments) moments
Traitors nest second best
Believed to make her feel free
Last breath of second best
To make him feel free

[Chorus:]
Autonomy nobody
Nice words in a box
Autonomy nobody
Sing a song a song for me

(Tiny) tiny (moments) moments
So desperate to please
Precious so useless
(Deceived) by these (moments) moments
Ingratiating objects made him feel free
Last breath of second best
To make him feel free

[Chorus]
Someone's breaking out of here
He won't come back [x2]

[Chorus]
You're so desperate to please
With your little smile these moments
Bless your little see through soul
And your sorry heart these moments
Ingratiating objects
No one is here to soothe
I'm so sorry so sorry
