It is coming up to what I never expected
I wanted to be gold always wanted to be you
I left you with no space
Where has your life gone?
Just gone without a trace I can see it in your face
I just left you behind with one thing in mind
It is me and the sun it is me and the sea

[Chorus:]
Ready to go
Won't give you any notice
Disappear without no sound
I have left you some ...
Ready to go
Won't give you any notice
Disappear without no sound
I have left you some red roses

I care but I know I ain't that fair
I care to the point you would still be here
It's been such a long time since I was out of my mind
I try to reach for the stars with this silly smile of mine
Then I will leave you behind with one thing in mind
It is me and the sun it is me and the sea

[Chorus]

Disappear without no sound [x4]
