"This Show"

Visit "[This Show](#)" on MotoLyrics.com

So you will breath her
And you will dream her
And you will kill you will kill
You will dream her
You will always dream her
But you will kill you will kill
No no now

[Chorus:]
Love's the mistake
I will never let go of this show
Love's the mistake
I will never let go of this show

No no no now
You killed my last survival gene
You killed what you have just seen
So you will breath her
And then you will dream her
And you will kill you will kill
You will dream her
You will always dream her
And you will kill you will kill
No no no now

Love's the mistake
I will never let go of this show
Love's the mistake
I will never let go of this show

You are not like me
And I am not like you at all
So love is the mistake
I will never let go of this show
