All away from the sound of your voice  
As such cannot hear  
So tear my picture and place it with a pretty face  
But will it end  
I know what you're on about, yeah  
Your call never look she's back

All the nights that you'd were gone  
In the scenic you would always  
Now I know  
I'll remember December

You got all last sound found chain  
I couldn't hear without  
I couldn't feel you without  
You were out in the pouring rain  
I couldn't hear without  
I couldn't feel you without  
Now, you were making all waiting

Now I know  
Now I know  
Now I know  
Now I know

All the nights that you'd were gone  
In the scenic you would always  
Now I know  
I'll remember December

Now I know  
Now I know  
Now I know
