Graveyard musty and cold  
Smells of autumn, smells of mold  
Pick up truckload full of bones  
There to play a few songs to one who's gone

There there child don't you cry  
Ain't it good to see a field of blackbirds rise

Some flew east and some flew west  
You come flying after the rest, darling always  
After everything we've read and seen  
Somebody leave but I'll stay

Calling she's calling  
From another day  
Calling she's calling  
Can't you come over here little girl  
Turn over my grave  
Shoo fly don't bother me  
Shoo fly don't bother me

Some flew east and some flew west  
You come flying after the rest, darling always  
After everything we've read and seen  
Somebody leave but I'll stay

The sun goes down across the land  
Mother earth meets father time and takes his hand  
And one is all, all is one again  
Can we be good friends, can we be good  
Can we be, can we, can

If you have friends in glory land  
Who left because of pain  
Thank God up there they'll die no more  
They'll suffer not again
