The pain will fade away
as time goes by
Your face won't seem so clear
anymore...

When I'm alone at night
I won't dream of you
No fear of memories
anymore...anymore

[Chorus]
I can't feel myself anymore
I can't feel myself anymore
I don't know myself anymore
I can't feel myself any...

Wake up to an emptiness
but I feel alright
won't cry myself to sleep
anymore...

Put my mind to rest
Forget what's in the past
Can't love what is not seen
anymore...

[Chorus]

Deep at night
No more dreams of you
Your face is not so clear anymore...

Never thought I'd find myself
Where I am now
It's not so lonely here
anymore...anymore..

[Chorus]
