alone laying on the ground
waiting to be found
can't let out a sound
alone and now way out
[x2]

let me out, let me out, let me out, let me out.....

alone in this lonely place
was i another case
of the bomb that fell today
why am i to blame
alone in this lonely place
was i another case
of the horrors in our days
why am i to blame

[Chorus]
nananananana no way out
far away, far from home
nananananana no way out
of this place, all i know

now i'm all alone
tragedy has hit my home
time has come and gone
but still the damage has been done
[x2]

let me out, let me out, let me out, let me out.....

[Chorus]

[Chorus]

nananananana no way
nananananana no way
nananananana no way whoa, whoa
[x2]
