In a dark room he stands
With a sharp knife at hand
Looking for more flesh
A victim to slash
Ready to come at you
With all that he has
Ready to come at you
With all that he has X2

[Chorus]
Rip me up - tear me to shreds
Show me no mercy
Just leave me for dead
Rip me up - tear me to shreds
One last thought before I'm dead

I'm sorry
For all the things I have done
So sorry
Never meant to hurt no one

She felt a sharp knife
Pointed at her neck
Didn't know what to do
Who to scream for help
The killer dragged her down
To the corner door
Put her life to an end
As she hit the floor X2

[Chorus]
Rip me up - tear me to shreds
Show me no mercy
Just leave me for dead
Rip me up - tear me to shreds
One last thought before she's dead

She's sorry
For all the things she has done
So sorry
Never meant to hurt no one

Tore him up from bottom to top
Blood sucked out of him
He was left to rot
Little did he know that tonight
Was the night
He was chosen to be one
At his sight

[Chorus]
Rip me up - tear me to shreds
Show me no mercy
Just leave me for dead
Rip me up - tear me to shreds
One last thought before he's dead

He's sorry
For all the things he has done
So sorry
Never meant to hurt no one

So..... sorry X3
