The day will come it's fast around

The bars, the walls come falling down

Ooh my fantasies to break from in these institutions

Ooh it's bitter sweet, but I can't live without my dreams

I'll try....

[Chorus]

To wait around

The day will come for you and me

I'll wait around, I'll wait around

That's all that's left for me to be

I'll wait around, I'll wait around

My eyes see farther than you see

I'll wait around, I'll wait around till you free me

New places they seem cold and blue

Watch all the couples two by two

Ooh I can't believe a heart so true can be so broken

Ooh how can I try to live without just turning back

I'll try...

[Chorus]

To wait around

The day will come for you and me

I'll wait around, I'll wait around
That's all that's left for me to be
I'll wait around, I'll wait around
My eyes see farther than you see
I'll wait around, I'll wait around till you free me
My simple innocence is lost and your the key
The time I've lost it's hard to breathe
Yeah hearts get broken well that's nothing new to me
Our day will come and you will see...
[Chorus]
I'll wait around
The day will come for you and me
I'll wait around, I'll wait around
That's all that's left for me to be
I'll wait around, I'll wait around
My eyes see farther than you see
I'll wait around, I'll wait around till you free me
Ooooh I'll wait around, I'll wait around
Ooooh I'll wait around till you free me
Ooooh I'll wait around, I'll wait around
Ooooh I'll wait around till you free me
