keep you poor and ignorant  
let you starve and die  
all to keep their pockets full  
with power, money and lies  
in the third world  
you won't see a progressing state  
in this land corporations rule  
it's now way too late

[Chorus]

cause in the 3rd world  
no opportunities  
in the 3rd world  
stuck in between  
in the third world  
no help from the outside  
cause it's a dead world  
where you fight to survive

you're washed up in the 3rd world  
you work for little pay  
no opportunities, no choices  
just set backs and delays  
now you are left unheard of  
you're left without a voice  
no way out of this world  
kept as their working toy

[Chorus]

ohhhhhh.....in the third world  
ohhhhhh.....in the third world  
ohhhhhh.....in the third world  
ohhhhhh.....in the third world
