I struck up the shore
Out tonight, out tonight
You were at the door
I fell, I fell

I was trying to get away
But you were there, yeah, you were there
And I walked down the street
Trying to, yeah, trying to

Find a place to be alone
I could go, I could go
Then comes afraid alone
But you were there, you were there

I went down the road
To find a friend, to find a friend
He said you said
That I was gone, that I was gone

I went home to stay
And you were there, and you were there
