And there on the stairs, standing there
Arm outstretched, point and glare
Watching the love fall to our feet
Into the floor to disappear

We're finding fault, when you kissed her
Or you slept with him, or you didn't care
Now it all breaks, disintegrates
Well this is the last thing I'll take

'Cause I can't face you now
This is the end, there's nothing to keep
This is the end of you and me

As the ice comes down it's the end
As the lies come out it's the end
As the tears flow out it's the end
It's the end of you and me

So we'll look out on the lake
And we see the white light
I said it was gold
It should have been gold

Then maybe all the crazy things you said
Would have a meaning
But this thing we have made
It can't stop, no, it won't stop

'Cause I can't face you now
Take your troubles solo, take your troubles solo
This is the end of you and me
Take your troubles solo, take your troubles solo
This is the end of you and me

As the ice comes down it's the end
As the lies come out it's the end
As the tears come out it's the end
It's the end of you and me

As the ice comes down it's the end
As the lies come out it's the end

As the tears come out it's the end
It's the end of you and me
