Got an enemy, livin' deep inside of me
Of Twenty years of livin' with my family in poverty
The veil of tears and the pain and the fear
I can't get cured I'm failed by economy
Ethics semantics a question of morality
I'm checking out the bobby for alternative authority
Can't kill cancer with irridology
Capturing a child with Kirlian photography
Livin' in a pyramid taking it to the hippy chick
Shit the two bit hustle anger muscle,
Hope it keeps me fitter, for longer
Jump your bones forever
It ain't medical, it's purely metaphysical

Better, better, better, better you
Forget about the Mystic Wisdom of the Ancients

Got a remedy ring-a-ding-a-ding-a-ding
Checking out the bootie makin' harmony inside of me
Paying my bills cut no slack with my ills
I can't get cured it's invading my anatomy
Organic, Biotic, Moronic and the Idiotic
Checking out the bootie from the cata- and the
Metabolic
Can't kill cancer with irridology

Living in a pentagram takin' it too the Guru man
Shit, this stupid phony ceremony
Hope it keeps me fitter for longer
Jump my bones forever
It ain't medical, it's purely metaphysical

Better, better, better, better you
Forget about the Mystic Wisdom of the Ancients
Never, never, never, never, do you
Provide a wheel within a wheel, I feel the bells begin to
ring

Yeah, all you ever gave me was the burden of a
pressure
All about the pressure all you ever gave me, ba ba ba

Better, better, better, better oooohh
Ring-a-ding-ding, Scratch it, I'm playing jiggy jiggy with
it
Ring-a-ding-ding,

Scratch it, catch it, lick it, eat it, dig it, use it, choose it
Lets do it

That's how the world goes, That's how the world goes

Phoenix raise, your wings (your wings)
Provide a wheel, within a wheel, I feel the bells begin to
ring
Better, better, better, better you
Forget about the Mystic Wisdom of the Ancients
Never, never, never, never, do you
Provide a wheel within a wheel, I feel the bells begin to
ring

Yeah, all you ever gave me was a burden of a pressure
All about the pressure all you ever gave me, ba ba ba
Better, better, better, better oooohh
Phoenix raise, your wings (your wings)
Provide a wheel, within a wheel, I feel the bells begin to
ring
