Are you wishing on a star?
Did you know your dreams are sold
To people who dream only of gold?
They'll find a way to pull stars down

Stand there, dance with
Stand there dance with a memory
The caption reads, "It's all over?"

Stand there, dance with
Stand there dance with a memory
The caption reads, "It's all over?"

Do you feel alone in the secret?
Are you standing there just weeping?

Do you feel the light is gone?
Is it hard to remain strong
In the face of all you know
In a world that's brought you low?

Stand there, dance with
Stand there dance with a memory
The caption reads, "It's all over?"

Stand there, dance with
Stand there dance with a memory
The caption reads, "It's all over?"

Stand there, dance with
Stand there dance with a memory
The caption reads, "It's all over?"

Stand there, dance with
Stand there dance with a memory
The caption reads, "It's all over?"

Do you feel alone in the secret?
Are you standing there just weeping?
