

Appleseed Cast "The Page"

I'm tired of waiting in this hollow state
Pushing aside things I want to say
It's taking my all to get out of bed
I'm pouring another drink to feel myself dead
Page is blank my pen is down, I'm working it out

It's been a while I've something to say
But my page is blank, my pen is down, I'm working it out
There's this feeling inside that's coming out
My page is blank my pen is down, I'm working it out

Put the pen to the paper but it wouldn't move
My page is blank, my pen is down, I'm working it out
