### "Hole On The Outside"

I went out today, it's time I will, it's time I will be  
accepted  
in my new clothes and my new shoes, I feel so hole on  
the outside

my inside is nose down, I want to be like you  
Make me better

my inside fades away, I know it's wrong, I know it's  
wrong but they got me,  
forever I fade away, perscripted happyness in me, they  
see me, they see me, when I'm all down,

my inside is nose down, I want to be like you  
Make me better

my inside is nose down, I want to be like you  
Make me better

inside is nose down, I want to be like you  
Make me better
