Verse 1 - Compound;

Baby I promise I'll never ever let you go  
Make you happy, give you everything and more  
Before I met you I mean it my heart was sore  
That smile is unlike anything I've ever seen  
Healed my heart like you were the vaccine  
You and I don't need any breaks inbetween  
Forever in love and girl that's the reason why  
You never need to ask me the question, why  
Cause why doesn't matter when I fucking love you  
Time was standing still the first time that I kissed you  
I don't think I could cope if you ever walked away  
Cause all I ever want is for you to just stay  
I know I'm loving you more and more each day  
When I know you're mine I can look straight to the sky  
Always see the blue clouds cause they never turn grey  
Me plus you equals forever in love uh

Hook - Anna;

I'm so glad that I found you baby  
Cause you're always in my life  
It's me and you forever baby  
Forever in love if you just believe  
We're gonna reach the top now baby  
Always be right by my side  
It's me and you forever baby  
Forever in love if you just believe

Verse 2 - Mackin;

I say I love you because it's true  
I just want it to be me and you  
I waited all my life stuck in the que  
Have your name on my heart like a tattoo  
Cause I know you're always gonna be down there  
I never ever let you go I promise and I even swear  
Spin the bottle, truth or dare  
You know for a fact, I don't care  
As long I have you, that's so fair  
That's all I want, so please just be aware

I'll snuggle you to sleep, you can be my teddy bear  
You're lovely with no make-up and bed hair  
You're gorgeous, no wonder people just stop and stare  
You're just mine, trust me I will never share  
Love is crazy, call me maybe, be my hero and come  
and save me

Hook - Anna;

I'm so glad that I found you baby  
Cause you're always in my life  
It's me and you forever baby  
Forever in love if you just believe  
We're gonna reach the top now baby  
Always be right by my side  
It's me and you forever baby  
Forever in love if you just believe

Breakdown - Anna;

Yes baby it's true  
I'm so in love with you  
You make my dreams come true  
Baby I'm in love with you  
You're my one and only  
You make my night turn to day  
There's so much I can say  
Baby I'm in love with you

Hook - Anna;
