Wooooow-owowo-why-ee-I

ah-yeah-yeah-yeah

ah-yeah-yeah-yeah

Yeah, you know

Babylon cross the line everyday

But we got a man on the system

Listen this - e-ey

Everday, I rise to the challenge

If you wanna speak, don't sit in silence

If you got problem, don't deal with violence

We are all the same, please don't be sudden

Everday people die for no cause

And that's the reason some people start wars

When the president speak they give him applause

Some of them even praise him and give him awards

Yeah, Babylon they cross the line

with them naughty politricks,

elections fixed

and my poison in my line (yeah, them are crossing!)

Oh yeah, yeah, yeah

Babylon they cross the line

With them old school rules,
brainwashed fools,
an them treat me like a child
Oh yeah, yeah
So come away with your guns and your badness
Can you ? ? I did with madness
If you'll only leave me feeling sadness
So I respect every every, Empress every princess
Come away with your guns and your crime
'Cause that's the reason why so many do time
Families in ruins they leave all behind
Babylon knew exactly what you did every time
Babylon they cross the line
with them naughty politricks,
elections fixed
and them poisoning my life (yeah, them are crossing!)

Oh yeah, yeah, yeah
Babylon they cross the line
With them old school rules,
brainwashed fools,
an them treat me like a child
Oh yeah, yeah, yeah
Babylon them stab you in the back, then make some
money
Them are the kind of man them never feel no pity,
them could've!

have a beginning, fund the hungry, begging

To them you're just a number, not a personality

Babylon stab you in the back, feel make some money

Them are the kind of man that never feel no kind pity
no

See the times are getting rough in the city now!

It's for my people up in Oslo!

Babylon they cross the line

with them naughty politricks,

elections fixed

and them poisoning my life (yeah, them are crossing!)

Oh yeah, yeah, yeah

Babylon they cross the line

With them old school rules,

brainwashed fools,

an them treat me like a child

Oh yeah, yeah, yeah

Wooooo-wowow-why-ee-I

ah-yeah-yeah-yeah

ah-yeah-yeah-yeah
