(I'm) workin' like a robot. I'm plugged into the groove.
Cuttin' through the static tracking' anything that moves.
And then I get a message a two-way radio.
I hear it in my headphones everywhere I go.
Big beatÂ... talkin' to me.

(Chorus)

I got the hormones in the headphones streaming down
into my backbone.
I got the hormones in the headphones gonna bring
them back to you.

Receiving a signal. it's getting' through to me.
Sweet imagination. It's the thing that sets me free.
I can program you
