Sample:

(Girl: You fucking pig, no I won't come in your face. You
come all over

my face and my hair, godammit

Guy: Shut up

Girl: Yea right, get the fuck outta my apartment nobody
comes on my
face)

Mother may I?

Mother may she?

Place her lips on my personality

Suck and sip

Taste the sour

Swallow and suck for another hour

That's all that I do

That's all that I do

That's all that I do

I do it for you

That's all that I do

That's all that I do

That's all that I do

I do it for you

Mother may I?

Mother may I?

Mother may she?

Mother may she?

Place her lips

Place her lips

All over me

Mother may I slip it in?

I execute my victim with the serial drip

I suppose on the way to her lips

The jelly on my belly and the movement of your hips

That's all that I do

That's all that I do

That's all that I do
I do it for you

That's all that I do
That's all that I do
That's all that I do
I do it for you

Mother may I?
Mother may I?
Mother may she?
Mother may she?
Place her lips
Place her lips
All over me

All that I do
I do it just for you

All that I do
I do it just for you

All I do
I do it just for you

Mother may I?
Mother may I?
Mother may she?
Mother may she?
Place her lips
Place her lips
All over me
That's all that I do
That's all that I do
That's all that I do
That's all that I do
That's all that I do
That's all that I do
That's all that I do
That's all that I do
I do it for you
