On the streets of New York  
The cabs don't stop  
On the street where I live  
They called the cops  
Found a noose in my garage  
Now how 'bout that  
So tonight I'm in the bushes  
With a baseball bat

Cause I'm a one man  
I'm a one man  
I'm a one man revolution  
I'm a one man  
I'm a one man  
I'm a one man revolution  
The time is nigh  
The day is dark  
There's only one solution  
I'm a one man  
I'm a one man  
I'm a one man revolution

On the streets of Havana  
I got hugged and kissed  
At the Playboy Mansion  
I wasn't on the list  
On the streets of Cape Town  
Shit's ready to blow  
I don't know how to get there  
But I'm ready to go

Cause I'm a one man  
I'm a one man  
I'm a one man revolution  
I'm a one man  
I'm a one man  
I'm a one man revolution  
The time is nigh  
The day is dark  
There's only one solution  
I'm a one man

I'm a one man  
I'm a one man revolution

Sacrifice and neon lights  
Slaveships don't wait  
Love many, trust few  
And don't be late

In my nightmares  
The streets are aflame  
And in my dreams  
It's much the same  
And on the streets of L.A.  
They know my name  
And if you've come this far mister  
Maybe we're one and the same

I'm a one man  
I'm a one man  
I'm a one man revolution  
I'm a one man  
I'm a one man  
I'm a one man revolution  
The time is nigh  
The day is dark  
There's only one solution  
I'm a one man  
I'm a one man  
I'm a one man revolution
