(V.1)

Don't stop keep playing dead
But leave his cards to me
And I'd follow my head again
And I'm becoming resistant too

No water, no water
So tell me, so tell me
No water, No water
Now tell me, So tell me

(chorus)

No!
What have I done?!
Dont talk to me!
Good luck, I wish you well
No!
What have I done?!
Dont talk to me!
Good luck, I wish you well

(V.2)

Today
Is another day
To give me to the broken
Incase I leave you
Please
Give me a rest
A rest is mine
Tryna' prevent a sequal
If you choose to take it anyway
Then go ahead, but I'll stay
But I'm gonna let it hit me inside

No!
What have I done?!
Dont talk to me!
Good luck, I wish you well
No!
What have I done?!
Dont talk to me!

Good luck, I wish you well

Instead of completing me (YOU TREASURE ALL OUR
TIME)

Forget it all, I've got my night (GO DEEPER FOR EVERY
DAY)

Cause I hear you call my name (NO ANSWER, IS IT TO
LATE?)

I welcome you inside this, boss

No!

What have I done?!

Dont talk to me!

Good luck, I wish you well

No!

What have I done?!

Dont talk to me!

Good luck, I wish you well

Good luck I wish you well

Good luck I wish you well

Good luck I wish you well

Good luck I wish you well

Good luck I wish you well
