I felt I was one with you
You probably didn't see
Oh I'm a nervous one
The pain it comes easily

Should I revolve my world around you?
Should I revolve my light around you?

Claudia, Claudia
You're taunting, you're teasing
You know I have feelings too
They're all for you

Claudia, Claudia
Provoking my heart
And I still have not broken the code
To your heart now, oh no

I blame it on your upbringing
You were made around the side of a van
You call me the trusting one
Trust it comes easy man

Should I revolve my world around you?
Should I revolve my light around you?

Claudia, Claudia
You're taunting, you're teasing
You know I have feelings too
They're all for you

Claudia, Claudia
Provoking my heart
And I still have not broken the code
To your heart now, to your heart now
Whoa oh oh, whoa oh oh
