A simple hug keeps you safe from the frost
We love to love when we're living with the both of us
As this twin channel is the symphony

And this is love, it's fallen from above
Maybe I don't say it enough, no
But you know you mean the world to me

Done a lot of growing up in this last year
And I've lost my mind and you know I fear so
Will I be dead and buried?

I never claimed to be no angel though
I tell you in the songs I wrote
The glass went smash that was in the past but hey
You know you mean the world to me

I was in a bad place, sent on a goose chase
Was running on the long blue mile of sweet disgrace
I'm taking this time to say sorry
This time to say sorry

Wasted tears cast shadows on the years
And silhouettes of arguments are always near
A most unnecessary worry
The fear creates the spaces for the races we can never win

I never claimed to be no angel though
I tell you in the songs I wrote
The glass went smash that was in the past and hey
You know you mean the world to me
You know you mean the world to me
You know you mean the world to me
You know you mean the world

So I'll try something spontaneous
Maybe a little obscene and hilarious
But with empathy, the most caring way
I know how to say 'cause it's change today

Titans clashed, did you have a good laugh?

I was in the wrong place when the glass went smash
I never claimed to be no angel though, oh

We've done this, we've done that
It's all gone off the railings, shouldn't think about that
We've done this, we've done that
It's all gone off the railings, shouldn't think about that

We've done this, we've done that
It's all gone off the railings, shouldn't think about that
We've done this, we've done that
It's all gone off the railings, shouldn't think about that

I never claimed to be an angel though
Tell you in the songs I wrote
Claimed to be an angel though
Tell you in the songs I wrote

Claimed to be an angel though
Tell you in the songs I wrote
The glass went smash that was in the past but hey
We should never dim the lights
