Dug too deep into illuminatti  
Rather found out from the sleaziest paparazzi,  
paparazzi  
Want to bet check the Internet, it's something that I'd  
show you  
But it's something that you might regret so don't check  
just yet

These cats are out to wipe out the nation  
These pricks use us to fund their NASA station so

We tell another constantly  
But shady'd telepathically  
Do it through the telephone  
Sending cheap lies through their home

We tell another constantly  
But shady'd telepathically  
Do it through the telephone  
Sending cheap lies through their home

Jimmy simmer down, I don't believe for one second  
Lies like that are made up to suck people like you in  
So don't bite the bait son

I've still not seen this documentary  
It puts down priests and that's something that I'm not  
into  
And I won't begin to

You talk so much of depopulation  
Won't come to Dundee so I don't see why your caring  
so

We tell another constantly  
Shady'd telepathically  
Do it through the telephone  
Sending cheap lies through their homes

Still not seen this documentary  
Puts down priests I can't begin to  
I've known you since elementary

I never asked you to grow cold  
I only told you 'cause you're close to me, we argue

One another constantly  
When it's really not our place to say  
We do it through the telephone  
Sending cheap lies through their home

Tell one another constantly  
When it's really not our place to say  
We do it through the telephone  
Sending cheap lies through their home

Tell one another constantly  
When it's really not our place to say  
We do it through the telephone  
Sending cheap lies through their home

We tell each other constantly  
When it's really not our place to say  
We do it through the telephone  
And no one's ever wrong
