I've had the same jeans on for four days now  
I'm gonna go to a disco in the middle of the town  
Everybody's dressing up  
I'm dressing down

Life's one big circle  
And it doesn't end  
When it ends  
Will you still be my friend?

I'm not making a fool of myself  
Oh tell me  
I'm not making a fool of myself

So  
When you look in the mirror  
Reflecting back at you someone that you don't know  
Oh That's just made your head spin around  
So get yourself together  
Get your feet back on the ground

I've had the same jeans on for four days now  
I'm gonna go to a disco in the middle of the town  
Everybody's dressing up  
I'm dressing down

I take my hats off to the busker man  
When they drown all the sorrows singing songs  
Now everything has worked out to plan  
But believe me it started as long as it can

So  
When you look in the mirror  
Reflecting back at you someone that you don't know  
Life's just made your head spin around  
So get yourself together  
Now put your feet back on the ground  
I've had the same jeans on for four days now  
I'm gonna go to a disco in the middle of the town  
Everybody's dressing up  
I'm dressing down

My minds not perfect but it's sincere  
You'd be amazed at what you can achieve in a year  
And you try so hard  
But your hearts on a switch  
And I know you try so hard  
But your hearts on a switch

So  
When you look in the mirror  
Reflecting back at you someone that you don't know  
Life's just made your head spin around  
So get yourself together  
Get your feet back on the ground

So  
When you look in the mirror  
Reflecting back at you someone that you don't know  
Life's just made your head spin around  
So get yourself together  
Get your feet back on the ground

Same Jeans on for four days now  
Everybody's dressing up I'm dressing down  
I'm not making a fool of myself  
Now believe me lady I can't tell

Same Jeans on for four days now  
Everybody's dressing up I'm dressing down  
Im not making a fool of myself  
Now believe me lady I can't tell
