I'm a big black cat and I meow all night  
Lord, I'm a big black cat and I meow all night  
If you wanna love me baby  
You got to learn to scrab and bite  
I'm a big black cat and my hair is long and black  
Lord, I'm a big black cat and my hair is long and black  
I'll be in the catmill while you scratch my back  
Well bend low, squall and purr  
Scratch my back and stroke my fur  
I'm a big black cat and I meow all night  
So lock your door and turn out all the light

Well if you want me kitten, let me hear you squall  
Lord, if you want me kitten, let me hear you squall  
If my feet won't bring me, I'll get right down and crawl  
Well bend low, squall and purr  
Scratch my back and stroke my fur  
I'm a big black cat and I meow all night  
So lock your door and turn out all the light

Well bend low, squall and purr  
Scratch my back and stroke my fur  
I'm a big black cat and I meow all night  
So lock your door and turn out all the light
