"Take a walk in the middle of a winter night/ in a forest  
all alone/ and you will understand what I mean/ it  
actually speaks"/ The noisy silence will never leave  
alone/ It's the wind that every night wildly blows/  
Welcome to Scandinavia, Welcome to Scandinavia//  
Come with me/ I'll take you to a place where you've  
never been/ And the snow falls down over me/ so free//  
The best colours are brown, green, white and blue/ the  
trees, the snow/ the lakes/ I see the elks running  
through the wide meadows/ oh oh / Welcome to  
Scandinavia, Welcome to Scandinavia // Come...// I'm in  
love with all the people of the North/ even with the  
enemies/ I know they might change/ Everything is  
incredibly perfect/ there's nothing that rots/ Odin made  
Scandinavia, yeah, Odin made Scandinavia//
