I would say to you the first thing that comes to my  
mind,  
(I will say to you, to you, to you, to you)  
Let's dance and find romance, leave you worries  
behind  
(Leave your worries behind, darling it's alright)  
And it's true just what they say, I'll make it worth your  
while  
(I'll say it once again to you)  
Well I could alter it, but I will tell it and then make it  
come alive  
(I will tell the story all over again)  
When I lose my hearts restriction when we dance this  
night away  
(Let's dance a little closer)

Don't do nothing, don't do nothing I wouldn't do  
Don't change your ways, don't change nothing I  
wouldn't change  
Don't say a thing, don't say nothing I wouldn't say  
Cause I'll be right here waiting for you

Don't think for just a second I will leave it up to faith  
(I'll keep you in a distance that's just far enough to  
touch)  
So stay with me and look as lovely as the dawn nigh  
(I'll stay with you, and leave inside)  
It's magic, why so cynical  
When does love feel so right  
I'll stand here till the (..) as we did once before  
(I'll stay, I'll stay, I'll promise I'll stay)  
But this time, all this dancing, heaven lights are just for  
you  
(They shine so bright for you, for you, for you)

Don't do nothing, don't do nothing I wouldn't do  
Don't change your ways, don't change nothing I  
wouldn't change  
Don't say a thing, don't say nothing I wouldn't say  
Cause I'll be right here waiting for you

So don't say nothing, you say nothing to the world  
It's been too much silence, burning (..) with each word  
You keep to yourself, I love you when you use nothing  
but words  
Words you don't say says too much, so don't say  
nothing at all

Don't do nothing, don't do nothing I wouldn't do  
Don't change your ways, don't change nothing I  
wouldn't change  
Don't say a thing, don't say nothing I wouldn't say  
Cause I'll be right here waiting for you
