"Light Up The Sky"

Visit "[Light Up The Sky](#)" on [MotoLyrics.com](#)

Here we are living the dream,
Take a chance, set the scene, do whatever you like,
All you got to do is believe,
We can take on the night, light up the sky!
We can take on the night, light up the sky!
We can take on the night, light up the sky!

We can take on the night, light up the sky!

Here we are living the dream,
Take a chance, set the scene, do whatever you like,
All you got to do is believe,
We can take on the night, light up the sky!
We can take on the night, light up the sky!
We can take on the night, light up the sky!

We can take on the night, light up the sky!
