Fire, fire, fire
Fire, fire, fire

Mankind is proud of the things he can do
So ask yourself now "What can I do?"
Who's gonna fight, yeah, who's gonna hide
Marching through the truth, backing up with lies

Shooting up rockets, walking on the Moon
We're killing for money, fighting for fuel
Who's after power, who's after fame
What is the reason to go insane

Fire, fire, fire
Can't you see my tears are
Fire, fire, fire
Everlasting meltdown
Fire, fire, fire
Lava from my eyes

Every generation is exactly the same
What makes you think that we are better than they
Nothing seems wrong, when it's good for me
I am a president, I'm a police

Insignificant tomorrow, today is today
A wonderful philosophy, what can i say
Who wants to win, who wants to play
After all, it's the end of a game

Fire, fire, fire
Can't you see my tears are
Fire, fire, fire
Everlasting meltdown
Fire, fire, fire
Lava from my eyes

Fire, fire, fire
Can't you see my tears are
Fire, fire, fire
Everlasting meltdown

Fire, fire, fire
Lava from my eyes

Can you see the same
Can you feel it now
All is meaningless
All is over now
A million miles away
Lies a better world
Waiting just for you
Waiting just for me

We've got all the time
We have all the words
Wipe away your tears
Wash away your pain
I will do the same
Hear the silent scream
From the emptiness
Then we disappear

Can you see the same
Can you feel it now
All is meaningless
All is over now
A million miles away
Lies a better world
Waiting just for you
Waiting just for me

We've got all the time
We have all the words
Wipe away your tears
Wash away your pain
I will do the same
Hear the silent scream
From the emptiness
Then we disappear

Can you see the same
Can you feel it now
All is meaningless
All is over now
A million miles away
Lies a better world
Waiting just for you
Waiting just for me

We've got all the time
We have all the words
Wipe away your tears

Wash away your pain
I will do the same
Hear the silent scream
From the emptiness
Then we disappear
