"Captain Falcon"

Visit "[Captain Falcon](#)" on MotoLyrics.com

In this world you've got to be strong,
You got to fight to keep your spirit alive.
And you might feel like there is nothing left to go
forward and fight for.
But it's the fight that keeps us ready and on guard.

Even I can feel the power
When I think of him, I see no fear I feel no pain.

Forever he will be my hero
Better believe he knows the way
And not just only for tonight

And now that I'm not just a dreamer
And I know I've got what he's got
And not just only for tonight
