"Night Chick"

She's just a night chick
Just another to lick

Just one to let go
After having a blow

Oh where can you be
Oh where can you be

Yet she's in my mind
But now I can't find

That lovin' night chick
Who was so fine to lick

Oh where can you be
Oh where can you be

Every night I hit the bars
I search all the cars

Yet she's not around
Nowhere to be found

Oh where can you be
Oh where can you be

No longer just a night chick
But the one I would pick

To spend all my life
as my ever lovin' wife.

Oh where can you be
Oh where can you be
