"It's Time To Rock And Roll"

ha ha ha i don't care what y'all say
girl it time to rock and roll
this time i'm in control
right now i own the streets
i got the keys to the city
and thats cos i got down

its time to rock and roll
this time i'm in control
right now i own the streets
i got the keys to the city
thats cos i got down

some times i wonder
how i made it this far
with all you people hatin on me
y'all know who you are

when i been doing my my thing
god you have to go
you been tellin me some stuff
and i don't wanna know

girl its time to rock and roll
this time i'm in control
right now i own the streets
i got the keys to the city
thats cos i got down

its time to rock and roll
this time i'm in conrol
right now i own the streets
i got the keys to the city
and thats cos i got down

do you know what i'm sayin
i got to get it through to you
that li'll i just want
to rock and roll its true

hey you i'm trish
and over here is li'l kim

we just want to rock and roll
