(Hofstede/Kloet/Stips - Hofstede)

It's early in the morning  
He's climbing up  
The ladder to the top  
Of his crane  
He's smoking a cigarette  
In his cockpit of glass  
Look down  
The town's  
Still asleep  
Peter and I were walking  
Along the long canal  
We could smell the factory  
Smoke  
Dirty filling-station  
We arranged the row of cans  
Till they said so so so so  
Cranedriver lift me up  
Put me in my past

Cranedriver lift me up  
Cranedriver lift me up  
Put me in my past  
Cranedriver lift me up  
Now Peter's building houses  
I am a keeper of records  
Both of '51  
The cranedriver's climbing down  
Every step a year  
It takes him twenty to the ground  
Cranedriver lift me up  
Put me in my past  
Cranedriver lift me up  
Cranedriver lift me up  
Put me in my past  
Cranedriver lift me up
