There are waves  
Up in the diamond sky  
Stronger than you and I  
I'm a wave,  
I break through the barrier reef  
Cut through the carbon sea  
Approaching the shore

Look at the sky, look at the trees, man it's all the same  
to me  
Look at the cars, look at the birds, and all of these  
invented words  
One body's dying breath is another's birth  
What are you runnin' from? What are you runnin' from?  
Sister Jury, Brother Judge and you all recognize this  
grudge  
Buried deep beneath the sands at these ridiculous  
demands  
No time for innocence, or sittin' on the fence  
What are you gonna do? What are you gonna,

When the waves  
Cover the coastal plane  
The tents and the cars and the trains  
And the trace of honeybees cemeteries  
Of non-insulated dignitaries  
All screaming off the memory of  
The human life, for anything  
Or anyone

Look at the birds, look at the bees, madame it's all the  
same to me  
Look at the girls, look at the gold, gathered deep and  
bought and sold  
One man's innocence is another's chance  
What were you thinkin' of? What were you thinkin' of?  
Now please let me boil it down to this, my son  
This party's gettin' wet, but it ain't over yet  
So what is it gonna be? What is it gonna be?  
What is it gonna be,

Just let the waves  
Cover the coastal plane  
The fear and the guilt and the pain  
And the trace of honeybees jealousy  
Of non-insulated bigotry  
And if you don't agree  
You better get back inside your cave  
Cause we're all dancin' with

The waves  
Up in the diamond sky  
Stronger than you and I  
I'm a wave,  
I break through the barrier reef  
Cut through the carbon sea  
Approaching the shore,
