There's nothing left of me
There's nothing left for you
We're stealing time
'Cause it's easy stop them

You've got the best of me
I've seen the worst of you
I'm crazy now
But my mind is fighting

Maybe I'll think of you
Maybe you're sick of me
The days and the nights
And the rest of your life then

There's nothing left for you
I'm kinda reeling too
But you and me isn't all I believe
'Cause I'm

Supernaturally I am
Inconceivably breathin'
Unbelievably feeling, how or why

Supernaturally I am
Inconceivably breathing
Unbelievably feeling, how or why

I'm not the all of you
You're not the rest of me
I feel it seems by the hour
And the life time

As I look down at you
As you look up at me
We're free at beings
Doesn't everybody dream

There's nothing left for you
There's nothing here for me
But you and me isn't all I believe
'Cause I'm

Supernaturally, I am
Inconceivably breathin'
Unbelievably feeling, how or why

Supernaturally, I am
Inconceivably breathing
Unbelievably feeling, how or why

I believe I can breathe
I believe I can breathe
I am a supernaturally me

Though it seems
There's a fire in my soul
I don't need to be fighting

Just be, just be, a lady in black
Why you never turned back
She said

Supernaturally, I am
Inconceivably breathin'
Unbelievably feeling, how or why

Supernaturally, I am
Inconceivably breathing
Unbelievably feeling, how or why

Supernaturally I am
Inconceivably breathin'
Unbelievably feeling, how or why

How or why
