Look what my heart has gotten into  
The sweetest gift I ever knew  
It's even better than my favorite shoes  
Look what my heart has found in you, really

Feels like sunshine, feels like rain  
Lord it feels like love finally called my name  
I wanna jump and shout, I wanna sing and dance  
Lord it feels like love wants a second chance

Look what my heart can clearly see  
How much I crave your company  
A true companion I will always be  
Look what my heart has done to me, really

Feels like sunshine, feels like rain  
Lord it feels like love finally called my name  
I wanna jump and shout, I wanna sing and dance  
Lord it feels like love wants a second chance

Looks like my heart has become  
The safest place for us to run  
Well I'll be here for you when the day is done  
Looks like my heart has found someone, really

Feels like sunshine, feels like rain  
Lord it feels like love finally called my name  
I wanna jump and shout, I wanna sing and dance  
Lord it feels like love wants a second chance, really

Feels like sunshine, feels like rain  
Lord it feels like love finally called my name  
I wanna jump and shout, I wanna sing and dance  
Lord it feels like love wants a second chance
