If you drive around back in our old hometown
I wonder do you think of me
When you drive by a school do you remember two fools
I wonder do you think of me?

And remember the park where you struck the spark
To a fire that's still burning, oh, in my heart
That old graduation day you just drifted away
I wonder do you think of me?

And remember those games, those cold football
games
I was your hero though I seldom played
Back then could you see what our future would be
I wonder do you think of me?

And the classes we missed caused by a kiss
I can tell you that I've never felt like that since
I don't know if you would but I'd go back if I could
I wonder do you think of me?

I still love you
Do you think of me?...
