# "If I Had My Way"

Visit "[If I Had My Way](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Oh if I had my way, we'd love one another  
And if I had my way, we'd all live as brothers

There'd be no more fussing and fighting  
No more hungry innocent dying  
I'd make it all go away if I had my way

Oh if I had my way I'd carry your burden  
And if I had my way no one would be hurtin'

And there'd be no more hatred and lying  
No more lonely little kids crying  
I'd make it all go away if I had my way

Maybe one day the walls will come down  
If I had my way, the lost would be found  
Love will find a way to turn everything around

There'd be no more fussing and fighting  
No more frightened little kids crying  
I'd make it all go away if I had my way

Oh yes I would make
