When the Texas moon is shining down on Austin
When it shines across the Rio Grande
When it comes to makin' love under the stars above
Well honey, I'll take Texas every time

We danced in every ballroom down in Beaumont
And we strolled the river walk in San Antone
And it's where we fell in love like to young turtle doves
Well honey, I'll take Texas every time

When it comes to makin' love under the stars above

Honey, I'll take Texas
Yeah honey, you know I'll take Texas
Honey, I'll take Texas every time
