If you're gonna play the jukebox
Would you kindly keep it country
'Cause I'm feelin' so lonely tonight
Oh, please play a sad song
'Bout a heart that's just been stepped on
Would you kindly keep it country for me tonight.

I'd get up off this bar stool
If you'd play something we could dance to
A song about a love that's gone astray
Oh, I love to hear 'em sing
'Bout the misery and pain
Would you kindly keep it country for me tonight.

--- Instrumental ---

Oh, please play a sad song
'Bout a heart that's just been stepped on
Would you kindly keep it country for me tonight.

Would you kindly keep it country for me tonight...
