If you're gonna play the jukebox  
Would you kindly keep it country?  
'Cause I'm feelin' so lonely tonight

Oh, please play a sad song  
'Bout a heart that's just been stepped on  
Would you kindly keep it country  
For me tonight?

I'd get up off this bar stool  
If you'd play something we could dance to  
A song about a love that's gone astray

Oh, I love to hear 'em sing  
'Bout the misery and pain  
Would you kindly keep it country  
For me tonight?

Oh, please play a sad song  
'Bout a heart that's just been stepped on  
Would you kindly keep it country  
For me tonight?

Would you kindly keep it country  
For me tonight, oh?
