Well, I've got to stop livin' the way I do
Give my heart back to you
All those nights away from home
Caused my lonely heart to roam
Now, I've got start livin' the way I do

I've spent a lifetime hurting you
And I expect someday you'll say we're through
It ain't too late for me to change
So please, don't write our final page
Still I've got to stop livin' the way I do

I've gone from honeymoons to heartaches
From faithful love to a fool
From hangin' out in honkey tonks
With any girl but you

Well, I've got to stop livin' the way I do
And give my heart back to you
All those nights away from home
Caused my lonely heart to roam
Now, I've got to stop livin' the way I do

I've said all that I can say
But you turned and walked away
It's too late to stop livin' the way I do
