Every little whisper, every little sound  
Brings me comfort whenever you're around  
A heart full of wonder and sweet reverie  
Gives me a reason, a reason to believe

Forever's just begun  
We'll never turn and run  
Slowly we've become one, oh, one  
Slowly we've become one

Love the way we're different, way we're the same  
Makin' love to each other is like shelter from the rain

Isn't it amazing? What I see in your eyes  
I'll be your partner and never leave your side

Forever's just begun  
We'll never turn and run  
Slowly we've become one, oh, one  
Slowly we've become one

Forever's just begun  
We'll never turn and run  
Slowly we've become one, oh, one  
Slowly we've become one, oh, one  
Slowly we've become one
