### "Push"

Visit "[Push](#)" on [MotoLyrics.com](http://MotoLyrics.com)

If someone is givin' you a bad nvg don't let it be  
If someone at work tryin' make you feel small let them  
If it makes them feel better  
'might feel like a slave workin' in that place  
I know you hate it  
Like a child that'll never see the king you grow up to be

These are some of the things  
I could truly do without  
When life gets out of hand I just wanna stand up and  
shout  
You know exactly what I mean you know what I'm  
talking about  
It's time together we'll sing lets push on back and out  
You gotta push  
Push

So what is stressin' you out?  
Don't let it take over  
You get psycally ill  
Pains and migrane  
makin' you older  
today everyone is loosin' hell from money things  
and I know you know about all the crazyness  
money things, gray

These are some of the things  
I could truly do without  
When life gets out of hand I just wanna stand up and  
shout  
You know exactly what I mean you know what I'm  
talking about  
It's time together we'll sing lets push on back and out  
You gotta push  
push

My momma strugglin' just to pay her damn rent  
while I'm livin' the rich life without a rent cent  
ridin' the subway people look at me funny  
I look fresh and clean  
they asume I make money

so I get on stage and let it all out  
I just rap to survive  
Fame is not what it's about  
Cus' fame is an illision coursing mass confusion  
knuckle heads, chicken heads look out what you're  
choosin'  
I pray to god, now you swear that I'm crazy  
I might sleep alot, but I'm not lazy  
I'm sick and tired of fightin' with my baby  
I hope she knows she is my lady  
We gotta put some knowledge in these kids heads  
cus' the devil runnin' wild and the time is a jet  
we can be a family  
all of us here  
we gotta push, push  
did I make myself clear?

These are some of the things  
I could truly do without  
When life gets out of hand I just wanna stand up and  
shout  
You know exactly what I mean you know what I'm  
talking about  
It's time together we'll sing lets push on back and out  
You gotta push  
push
