"An All Blue Sky"

I can't help it but aggression
Puts my brain on sale
Egoism and alienation's
What makes it hard to breathe,
Come on and try to impress me!

'Cause I'm not waiting for someone to do the job!
No it's blue to not take action!

What are you waiting for just take the
Responsibility
We're all a part of this relation
Take time to do your thing for us
Just prove your exception!

'Cause I'm not waiting for someone to do the job!
No it's blue to not take action! (I don't find it so hard)

We've all got battlefields! But some more glorified!
