She's a caged animal  
London by night  
Crashing lights and cymbals  
Queens of Twilight

And if I was you  
I'd use the loo before the long drive  
We compliment each other  
Just like Satan and Christ

Baby, when I am laid to rest  
May my laughter remain  
Like your kiss blew me away

I see you spirit  
I gotta know right now  
I see you before me  
Won't you show me how?

I wear my hair fizzy  
I don't copy no style  
But kissin' and a scrubbin'  
It has consequences

You're on the bus again past Big Ben  
With your rip off Oyster card  
Tell your A.S.B.O. friend  
To sling his hook and go make your girl smile

Cause baby, when I am laid in earth  
May my laughter remain  
Like your kiss blew me away

Left your scent on my pillow  
Sister Rosetta was playin'  
The congregation insane  
Drinkin' in the house with no name

Capture the spirit  
I gotta know right now  
I see you before me

And won't you show me how?

Cause I am the landlord  
You'll be my troubadour  
Better before me  
Won't you show me how, how?

You gotta capture the spirit  
Cause I gotta know right now  
I see you before me  
Won't you show me how?

I am the landlord  
And you'll be my troubadour  
Was it better before me?  
You just don't know how

Capture the spirit  
And let it all hang out  
I see you before me  
Darlin', show me now

I am the landlord  
And you'll be my troubadour  
Oh, oh, oh, oh, oh  
Won't you show me how, how?
