"Edge Of Time"

I'll tell you how it feels to be
Face to face with ecstasy.
While fortune tellers on TV
Bend to see reality

Wooden kisses fill the air
In paradise beyond compare
I'm all alone and waiting there
Unaware, upon the stair

Meet me at the edge of time
Seven wonders on a dime
From a trip that's so divine
We never will return.

Monkey see and monkey do
In an alley of bamboo
We'll dig a hole and tunnel through
A frozen view for the chosen few.

Europe's on the radio
They're signaling the Alamo
We're down along the undertow laying low.
