Another liar sets the stage  
For accidents and early graves  
Our enemy lives in a cave  
On that we can rely

So I'm on a plane. Away from you.  
They said I'd get to kill a few  
But they didn't ask my point of view  
Cross my heart and hope to die

Save me, I'm just a baby  
Hazy and unaware  
Maybe we're going crazy  
Or maybe we're already there

An actor's work is never done  
From Sacramento to Washington  
You don't have to be a rich man's son  
To play a rich man's game

Where integrity is compromised  
Each syllable is scrutinized  
Who are we to criticize?  
Who are we to blame?

We've been misled for years and years  
By millionaires and puppeteers  
They blow a whistle no one hears  
It makes us think we're free

So that we believe the government  
Won't abandon those they represent  
I won't stand by the president  
Until he stands by me
